PROFESSIONAL SUMMARY

Software Developer & Analyst with 2+ years of experience in the FinTech sector, specializing in backend development with PHP and Python. Focused on translating complex financial business logic into reliable simulators, intelligent digital forms, and data processing tools. Final-year Software Engineering student with training in cloud architecture, agile methodologies, and relational databases.

WORK EXPERIENCE

Software Developer & Analyst · Enlace Hipotecario Afimex

Mar. 2024 – Present

Torre Perisur, Mexico City · Hybrid

- Lead analyst for the platform's mortgage and credit simulator, translating complex bank product calculation rules (mortgages, liquidity, refinancing) into executable system logic for major financial institutions.
- Developed and optimized intelligent digital forms that automate credit application generation with 100% compliance with each bank's unique requirements, reducing manual processing time.
- Subject Matter Expert (SME) for the internal platform, providing advanced technical support to a team of financial advisors to efficiently process client credit applications.
- Proactively identified and resolved bugs in the production codebase, ensuring platform stability and optimal performance.

Junior Web Developer · Maestros del Media

Apr. 2019 – Sep. 2019

Mexico City · Remote

- Built, deployed, and maintained responsive web applications for a diverse client base using PHP and WordPress.
- Gathered project requirements directly with clients and provided ongoing post-launch technical support.

EDUCATION

Bachelor of Science in Software Engineering

Oct. 2023 – Oct. 2026 (Expected)

Hybridge Education · Specialization: Cloud Architecture & Mobile Application Development

- Coursework in AWS, Docker, and Python; hands-on experience with Agile/Scrum methodologies.

TECHNICAL SKILLS

Backend & APIs: PHP, Python (Flask), Node.js (NestJS, Fastify), RESTful APIs

Frontend: React, Angular, TypeScript, JavaScript, Tailwind CSS, HTML5/CSS3

Databases: PostgreSQL, MySQL, MongoDB, SQL

Cloud & DevOps: AWS, Docker, Nginx, Ubuntu, Git/GitHub

Methodologies: Agile / Scrum · Financial Product Analysis

Languages: Spanish (native) · English (technical reading & documentation)
